## **Graph of the Week**

March \_\_\_\_\_, 2021

Analyze the graphs below and write a reflection on what you think the graphs are communicating to you. To guide you with your response, start with some observations.

- What is the topic of the graphs?
- What quantities are being compared? (If there are x- and y- axes, what do they represent?)
- What are some observations that you can make based on the graphs?
- What do you foresee happening in the next 10 years?

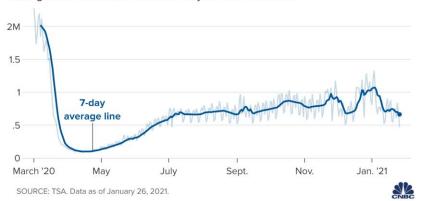

## Questions to ask when reading graphs:

Name

- > Is there an upward or downward trend?
- Are there any sudden spikes in the graph?
- ➤ What is being compared in the graph?
- What prediction can I make for the future?
- What inferences can I make about the graph?

## U.S. air travel

Daily travelers passing through TSA checkpoints since March 2020. Weekly averages are shown to account for day-of-week variation.
