

Analyze the graph below and write a reflection on what you think the graph is communicating to you. To guide you with your response, start with some observations.

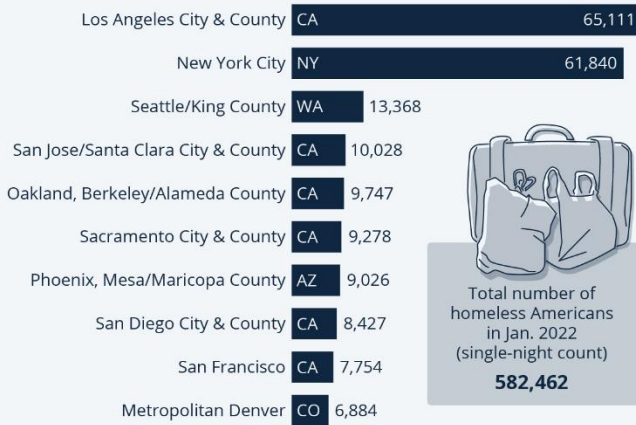

- What is the topic of the graph?
- What quantities are being compared? If there are x- and y- axes, what do they represent?
- What are some observations you can make based on the graph?

Questions to ask when reading graphs:

- Is there an upward or downward trend?
- Are there any sudden spikes in the graph?
- What is being compared in the graph?
- What prediction can I make for the future?
- What inferences can I make about the graph?

The U.S. Cities With the Most Homeless People

CoCs* with the largest numbers of people experiencing homelessness in 2022

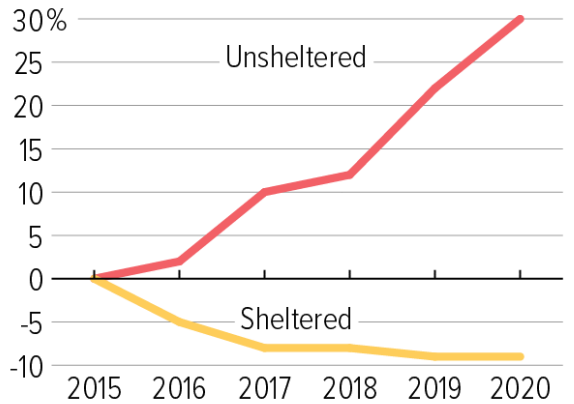

* CoC - Continuums of Care (local planning bodies coordinating homelessness services)
Source: U.S. Department of Housing and Urban Development

A. Analysis

Unsheltered Homelessness Increased Every Year Since 2015

Percent change in people experiencing homelessness since 2015

Source: 2015-2020 Housing and Urban Development point-in-time data

B. What can you foresee happening in the near future?

C. Based on your response in part B, what solution(s) can you investigate or what other information/resources can you gather to strengthen your argument?

Make an illustration or represent the data in your own way in the space below:
