

Graph about Me

GOW Assignment Due: _____

Create your own GOW!

1. Think of an aspect of your life that you could create a statistic about, tracked over a substantial period of time. Be creative! Here are just a few examples:

- number of hours spent practicing for a sport/playing an instrument from year to year
- how many followers you have
- how your GPA changed since the start of middle school
- number of hours/days spent volunteering
- your love/hate for a particular school subject
- how many miles you run
- how your taste in music genres changed
- number of hours spent on phone
- number of hours worked

2. Decide how you want to display your data. This could include, but not be limited to, the following:

- line graph, histogram or bar graph,
- circle graphs, scatter plots

3. Be sure to title your graph, and have clearly/readable categories (i.e. label x- and y-axes). Explain what the numbers represent.

4. Explain what your graph is communicating (just like you do for the Graph of the Week Reflections). This could be anywhere from about a 1/2 page to a full page, no larger than 12pt font.
